Portfolio Link

With over 5 years of experience in front-end development using HTML5, CSS3, JavaScript, PHP, Flutter, and various frameworks, I excel at creating high-quality user interfaces. Skilled in collaborating with cross-functional teams to ensure seamless integration of web applications into the corporate environment.

Skills

- **Programming Languages:** HTML5, CSS3, JavaScript, PHP, Flutter, React
- **Database Technologies:** MySQL
- **Design Tools:** Figma. Sketch, Adobe Creative Suits

Experience

Front-End Developer
Prime Wave
Mar 25 – Present

- Developed modular and scalable Flutter applications, maintaining clean architecture with separation of concerns (MVC/MVVM patterns).
- Integrated third-party services and SDKs such as Firebase, Paystack, and Google Maps for enhanced app functionality.
- Conducted thorough testing and debugging, using tools like Flutter DevTools and unit tests to ensure reliability before deployment.

Front-End Developer
Zoan Technology
Jul 24 – Feb 26

- Build and maintain cross-platform mobile applications using Flutter and Dart, ensuring smooth performance on both Android and iOS.
- Implement responsive UI designs and custom widgets, translating Figma prototypes into high-quality, pixel-perfect interfaces.
- Integrate RESTful APIs and manage app state using GetX, Provider, or Riverpod for efficient data handling and user interaction.

Front-End Developer
Briskita
Mar 24 – Jun 24

- Redesigned the user interface for a popular e-commerce website, leading to a 15% increase in sales.
- Created responsive web pages using HTML5, CSS3, and JavaScript to ensure compatibility across various devices and browsers.
- Developed wireframes and prototypes to visualize and test design ideas.

Front-End Developer
Prifina
Nov 22 – Feb 23

- Built dynamic single-page applications using React and Redux.
- Assisted in mentoring junior developers, providing guidance on best practices and coding standards.
- Designed and implemented A/B tests to evaluate new features and designs.

Web Developer
Semantic
Nov 21 – Jun 22

- Conduct unit testing, integration testing, and performance testing of web applications, ensuring adherence to quality standards.
- Deploy and maintain web applications on AWS and Azure, utilizing cloud-based infrastructure for scalability and reliability.
- Deployed and maintained web applications on-premises servers, ensuring uptime and performance optimization.

Web Developer

Linxcom

Nov 19 – Oct 21

- Developed and maintained web applications using Java, HTML5, CSS3, and JavaScript, ensuring compatibility across various browsers and devices.
- Created responsive designs for web applications, adapting the user interface to different screen sizes and devices.
- Implemented user authentication and authorization systems, safeguarding user data and access permissions.

Education

Bachelor of Science in Computer Science

National Open University [NOUN]

Aug '14 – May '18

Certificates

Certificate of Completion UX Design,
Certificate of Completion Web Programing
